Use your plan minutes in Canada or while travelling in the U.S., it's all the same. North American Plans give you a preferred U.S. data roaming rate which will allow you to use your device and save money while travelling in the U.S..

You can choose to share your minutes and data with friends or family members that subscribe to the same plan as you do.¹¹ As a bonus, calls made between share plan members do not count against your voice minutes. For Example: You and a friend/family member each subscribe to the Canadian Share 500 Plan. You would each pay \$60/month and get a total of 1000 voice minutes and 1000MB of data to share however you like.
